PSI Painting, Inc.
ATTN: Philip Salter
3725 71st Terrace East
Sarasota, Florida 34243

Philip Salter:

I would like to commend you and Joe, your brother, for the outstanding job painting the interior, the garage, the garage floor and selected parts of the exterior.

My general directions were to paint everything previously painted with a fresh coat of paint (closets, interior walls and baseboard) and you did that with no missed surfaces. You matched surfaces previously painted with oil or latex paint with a new coat of paint.

I would like to point out things that impressed me: your willingness to research certain aspects of the paint job, including how to deal with the fact that a heavy smoker previously lived in the house for a few years. Your preparations and solutions were on target and the prices charged were very competitive with market conditions.

You were thoughtfully careful throughout to not have spillage marks on the tile surfaces and keeping baseboard oil paints from going over onto the wall surfaces, and vice-versa.

At the end of the job you did a commendable job of cleaning up – in my judgment a very important aspect of the job.

Near the completion of the job I had to go to Vermont and then Massachusetts for several weeks. You finished the job as agreed upon and your trust was never in question with respect to free access to the house and the billing costs.

I would not hesitate to recommend you to friends or acquaintances.

Sincerely,

Stanley P. Rodak
